

Decoder

Radio frequency decoder soft label decoding plate

Product description

[Technical parameters and specifications]

- can be connected to two decoding
- Frequency: 7.4MHZ ~ 9.0Mhz, sixteen point frequency technology
- decoding speed: 60 / min
- decoding height: $\geq 15\text{cm}$
- Input voltage: AC 220V (50hz) $\pm 1015\%$
- Power consumption: $\leq 5\text{W}$
- main colors: white, brown

1. One of the most advanced all-digital decoding technology, industry-leading level has been reached, both imported soft label or domestic soft label decoding rate of 100%,
2. Fully digital and micro-processing technology
3. High-reliability, high stability
4. Sound and mature along the two technologies
5. Can be combined with the platform scanning cash register systems, cash register decoding once
6. Advanced surface material package, stylish appearance
Installation, use, maintenance extremely simple
