

## Rf security systems

Radiofrequency security door Market security door(RF006)

### Product description

Size: 167 x 33 x 3 cm

Detection door distance: 1 m (soft label) - 1.6 meters (hard tags)

Characteristics:

1. Aluminum frame technology, DSP technology application (self-owned intellectual property rights);
2. Dynamic noise suppression technology;
3. Adaptive multi channel frequency hopping technology.
4. Optimal real sex strong, high sensitivity, fast response, strong anti-interference capability, misinformation, fail to low;
5. Simple installation and debugging。
6. Power supply, low power consumption measurement rate higher, misinformation rate is extremely low characteristic.
