

Rf security systems

Radiofrequency security door (RF001)

Product description

Material: POLYacrylic Size: 1680x35x98mm

Frequency: 8.2MHz±0.05MHz

Modulate Frequency: 180MHz± 1MHz

Weight: 7kg

Detection Range: 1.1-1.8M

Power: ≤15 W

CTN Size: 1720x400x160cm

Gross Weight: 19KG

Description: Using DSP(digital signal processing)& AGC(automatic gain control) high technologies with excellent sensitivity in metal detecting and strong anti-interference.
